TriGard Protection™

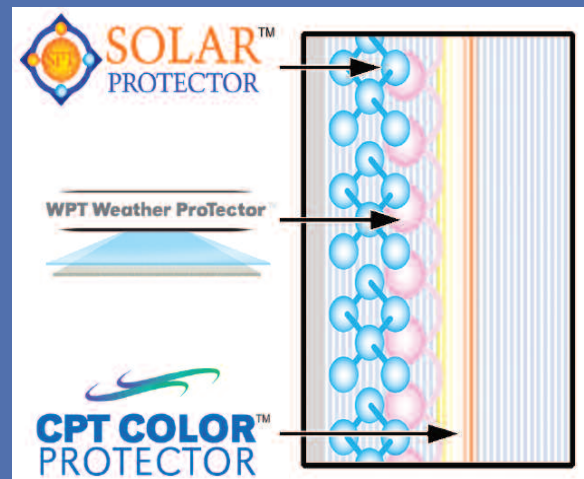

SPT Solar Protector™ Technology helps block out the sun's harmful UV rays. Anti-weathering materials dispersed on the surface help protect where it's most exposed.

WPT Weather Protector™ Technology, with its precise formulation, helps combat cracking, thermal expansion and contraction to deliver you a product that's virtually maintenance-free.

CPT Color Protector™ Technology helps preserve the color integrity of your vinyl fence, deck and rail. Utilizing additives, inorganic pigments and PVC resins, it works hard at reflecting heat and harmful infrared rays.
